

CLAIMS

What is claimed is;

1. A hand protector comprising;
A high strength lightweight impact resistant material
A pre formed high strength lightweight impact resistant material, (titanium / aluminum / steel / hard plastic or similar type materials thereof pre formed and contoured to cover the back portions of the hand and fingers.
A hand protector comprising of an individual pocket enclosure or enclosures comprised of impact resistant material(s) covering the area of the back of the hand and fingers.
2. The hand protector of claim 1 wherein the pre formed material consists of any high strength lightweight substance that dissipates impact force.
3. The hand protector of claim 1 wherein the entire, or sections of the back portions of the hand and fingers are covered by the high strength lightweight impact resistant material.
4. The hand protector of claim 1 wherein the high strength lightweight material is in a solid sheet form or any similar form thereof.
5. The hand protector of claim 1 wherein the high strength lightweight impact resistant substance utilized to cover the back portions of the hand and fingers consists of a single piece or multiple pieces of said material.
6. The hand protector of claim 1 wherein the piece(s) of the high strength lightweight impact resistant material is fully stitched and enclosed within a padded pocketed enclosure(s) or similar type material pocket enclosure(s) thereof.
7. The hand protector of claim 1 wherein the high strength lightweight impact resistant material(s) utilized to cover the back portions of the hand and fingers may be bonded / hinged / welded / or by any other manner joined together in order to contour and conform to the knuckle areas of the back portions of the hand and fingers.
8. The hand protector of claim 1 wherein the high strength lightweight impact resistant material dissipates 10 % - 95 % of impact energy received by the hand protector.
